

Do you have a child with autism? Are you currently pregnant? Then this study might be right for you!

You are invited to participate in an important research study. This study will follow women through a pregnancy who already have a child with autism to learn more about early signs of autism and its potential causes.

Who is conducting the study?

Dr. Craig Newschaffer
Center for Autism and Developmental
Disabilities Epidemiology (CADDE)
Johns Hopkins University

Dr. Rebecca Landa
Center for Autism and Related
Disorders (CARD)
The Kennedy Krieger Institute

What will be involved?

- ✗ ~~C~~ollection of blood, hair, saliva, and placenta samples
- ✗ ~~F~~etal neurobehavioral assessment (includes monitoring of fetal heart rate and motor activity as well as your heart rate, respiration, and skin conductance)
- ✗ ~~T~~elephone interviews, questionnaires, and a pregnancy diary
- ✗ ~~M~~edical record reviews

Total compensation of up to \$200 for completing the study

Please call **CADDE** at **1-877-868-8014** or contact us via e-mail at **cadde@jhsph.edu** if you are interested in learning more.
